August 18, 2025 Hiring
Manager
National Security Agency

Dear Hiring Manager,

I am writing to express my interest in the Computer Aide position at [Company Name]. As a dedicated high school student enrolled in the Cyber Academy of Excellence and Richmond County Technical Career Magnet School, I bring a strong foundation in cybersecurity, networking, and hardware diagnostics, along with a proactive attitude and a passion for hands-on learning.

Through rigorous coursework such as *Networking Fundamentals*, *Introduction to Cyber Security*, and *Hardware Technology*, I've gained practical experience configuring switches, troubleshooting network issues, and installing secure operating systems. My GPA of 98.5% in the Cyber Security pathway reflects both my technical aptitude and commitment to excellence. Alongside my technical skills, I have also obtained my CompTia Security+ certification.

Beyond academics, I've developed key soft skills including teamwork, communication, and leadership—qualities that help me thrive in collaborative environments and adapt quickly to new challenges. I take pride in my ability to think critically, manage projects efficiently, and support others in achieving shared goals.

I am eager to contribute my skills and enthusiasm to your team, and I welcome the opportunity to learn from experienced professionals in a real-world setting. Thank you for considering my application. I would be grateful for the chance to discuss how I can support your organization's technical needs.

Sincerely,
Virgil Carpenter
